Re-scoring request of: Reading Writing Mathematics/mathématiques

Confirmation of Request

I have spoken with the principal about this request, and have been informed of the measures that have been taken to ensure the scoring of the assessment in question is fair and accurate. I understand that I will not be given a copy of the assessment to be re-scored, nor will I have the opportunity to see the assessment to be re-scored. I have also been informed that the result of this re-scoring request will be the final determination of the assessment score, and that this score will replace the original score, even if this results in a lower score. This request will be submitted according to the timeline that has been communicated to the school principal. Note: this request for re-score will verify the results as reported on the Student Report. In the case of Nova Scotia Examinations, the re-score result will have no bearing on the examination mark as used to calculate the student's final grade in the course.
